DESCRIPTION OF A COLLECTING TRIP IN PERU, ECUADOR, COLOMBIA AND VENEZUELA

by

A.S.H. BREURE
(Leiden)

Introduction.

In the course of my work on neotropical land snails I recently had the opportunity to make an extensive collecting trip through various countries in South America. The main purpose was to obtain living specimens of Bulimulidae and to preserve them in buffered formalin. However, all land snails found were collected, and in case of living specimens preserved in Ca-formalin. The material has been deposited in the collection of the Rijksmuseum van Natuurlijke Historie, Leiden.

During the journey I also made ecological observations and gathered data on the distribution of the species.

Acknowledgements.

This trip has been made possible by a grant of WOTRO (Netherlands Foundation for the Advancement of Tropical Research).

During preparation of the trip and during the journey itself I have had much cooperation of the Dutch embassies in the various countries. I would like to thank here especially Mr. H. Bouwknecht (Bogotá), Mr. C.R. van Bijleveldt (Lima), Mr. J.E. Creaanen (Quito), Mr. C. Hogenboom (Rio de Janeiro), and Mr. J.Spoormaker (Caracas).

Also several scientific institutions gave their cooperation during my visit. I am grateful to Prof. R. Ferreyra (Museo de Historia Natural, Lima), Prof. G. Orcés (Escuela Polytécnica Nacional, Quito), Dr. H. Fernández (Instituto de Ciencias Naturales, Bogotá), Prof. R. Martinez (Escuela de Biología, Caracas) and
especially Prof. A.C. dos Santos Coelho, Prof. H.E.B. Rezende and Prof. J.L.B. Araujo (Universidade Federal de Rio de Janeiro).

I am very grateful to Prof. Dr. W. Vervoort for his help. Also Dr. E. Gittenberger and Mr. D.R. Vroom of the Rijksmuseum van Natuurlijke Historie deserve highly my gratitude for the organizing work which was done during my absence. The same applies to Prof. Dr. J.T. Wiebes and his staff.

Itinerary.

I. PERU (January, 22 - April, 6, 1975)

January 22-February 4: Lima
  January 25: excursion in Río Rimac valley; February 1: excursion to Río Santa Eulalia valley; 2: collecting trip to Río Chillón valley.

February 5-7: Río Cañete valley
  5: Lima-Yauyos; 6: collected in environs of Laraos; 7: Yauyos-Ica.

February 8-9: Ica-Tacna
  8: collected in loma-vegetation near Atiquipa and Atico.

February 10-11: environs Tacna and returned to Arequipa
  10: excursion to Tarata and environs.

February 12: Arequipa-Juliaca

February 13: excursions in environs of Lago Titicaca

February 14: Juliaca-Cuzco

February 15-24: Cuzco and environs

February 25: Cuzco-Abancay

February 26-28: Andahuaylas and environs
  26: Abancay-Andahuaylas; 27: excursion to Río Pincos valley

February 28-March 1: Andahuaylas-Ayauccho

March 2-3: Ayacucho-Huancayo (via Huancavelica)

March 4-5: Huancayo

March 6-7: Huancayo-San Ramón (via Tarma)

March 8-10: San Ramón and environs
  8: collecting trip to Mina Pichita Caluga; 9: to environs of La Merced; 10: excursion to Oxpampa.

March 11: San Ramón-Junín
March 12: Via western side of Lago de Junín to Cerro de Pasco
March 13-14: Cerro de Pasco—Tingo María
March 15-22: Tingo María and environs
    15: excursion to Boquerón del Padre Abad; 16: collecting trip to
    Cuevas de las Lechuzas; 17-18: trip to Pucallpa; 19: collected at
    Boquerón del Padre Abad; 20: collecting trip to region north of
    Tingo María; 21: short excursions near Tingo María.
March 23: Tingo María–Lima
March 24–April 6: Lima

II. ECUADOR (April 6-22, 1975)
April 6-10: Quito
April 11-16: excursions in environs of Quito
    11: trip to region of Tanadayapa; 12: trip to Manegal and environs;
    13: trip to region of Tandapi (road to Santo Domingo); 14: excursion to
    region east of Quito; 15: Quito; 16: excursion to Mitad del Mundo
    and Calacalí.
April 17: excursion to north Ecuador (Chota valley and El Angel)
April 18-22: Quito

III. COLOMBIA (April 22 - May 11, 1975)
April 22-29: Bogotá
April 30-May 4: trip to northern Colombia
    30: Bogotá–San Gil; 1: San Gil–Pamplona; 2: excursion to region of
    Cúcuta; 3: Pamplona–Sogamoso; Sogamoso–Bogotá.
May 5-11: Bogotá

IV. VENEZUELA (May 11 – June 3, 1975)
May 11-13: Caracas
May 13-22: at biological station "Rancho Grande"
May 22-24: Caracas
    24: collecting trip to region of Colonia Tovar
May 25–June 2: trip to western Venezuela
    25: Caracas–Baranitas; 26: Baranitas–Mérida; 27: excursion to
    region of Lagunillas; 28: Mérida–Barquisimeto; 29: Barquisimeto–
    Coro; 30: Coro–"Rancho Grande" (there until June 2).
June 2-3: Caracas

V. BRAZIL (June 4-11, 1975)
June 4-11: Rio de Janeiro and at Campus Universidade Federal Rural
63A - Dept. Lima, Río Chillón valley, 11.5 km SW Canta; in mosses and leaf litter; 2270 m; 2.II.1975.

**Localities.**

A capital-letter after the station-number indicates a different habitat at the same locality; an ordinary-letter indicates that the locality was visited before. Localities 1-62 are described in Breure, 1974. Distances usually measured by road, unless otherwise stated.

**PERU.**

63 - Dept. Lima, Río Chillón valley, 10 km SW Canta; sparse vegetation near rocks and stony slope; estivating on plants and rocks; 2300 m; 2.II.1975.

64 - Dept. Lima, Río Chillón valley, 25.5 km SW Canta; grassy vegetation with rock-outcrops; in vegetation and on rocks; 1660 m; 2.II.1975.

65 - Dept. Lima, Río Chillón valley, 30 km NE Yangas; hillslope with agaves, small cacti and shrubs; at basis of rocks estivating on plants; 1950 m; 2.II.1975.

66 - Dept. Lima, Río Santa Eulalia valley, 3 km above hydroelectric plant "Carampoma"; steppe with puya's and small cacti; among mosses and small vegetation; 3370 m; 1.II.1975.

67 - Dept. Lima, Río Santa Eulalia valley, 3 km above Autisha; sec. vegetation; in leaf litter among shrubs etc.; 2500 m; 1.II.1975.

68 - Dept. Lima, Río Santa Eulalia valley, 5 km above Huinco, small ravine immediately left after tunnel; rock-outcrops with grasses, shrubs and a few trees; estivating on vegetation and rocks; 2150-2170 m; 1.II.1975.

s.n. - Dept. Lima, Río Santa Eulalia valley, 2 km above Huinco; estivating on rock; 1940 m; 1.II.1975.

69 - Dept. Lima, Río Santa Eulalia valley, 14 km above Sta Eulalia; stony hillslope with small shrubs and a few cacti; on shrubs and stones; 1685-1700 m; 1.II.1975.

70 - Dept. Lima, Río Santa Eulalia valley, 9 km above Sta Eulalia; stony hillslope with small plants and cacti; estivating
on plants and under stones; 1480 m; 25.I.1975.

71 - Dept. Lima, Río Rimac valley, El Infiernillo, abt. 105 km ENE Lima; slope with sparse vegetation of small shrubs and cacti; among small stones; 3340 m; 25.I.1975.

72 - Dept. Lima, Río Rimac valley, a few km E Surco (= approx. 75 km ENE Lima), where railroad passes by viaduct; secondary vegetation; in debris under small trees and shrubs and on rocks; 2100 m; 25.I.1975.

73 - Dept. Lima, Río Rimac valley, 43 km ENE Lima; hillslope with large stones and sparse vegetation of cacti and low shrubs; among stones; 1100 m; 25.I.1975.

s.n. - Dept. Lima, Lima, Miraflores; garden; 180 m; 24.I.1975.

74 - Dept. Lima, near José Galvez, SSE Lima; lomas-vegetation; among vegetation; 100-200 m; 4.II.1975.

75 - Dept. Lima, Río Cañete valley, Quiahuc, 5 km of Laraos on footpath to Yauyos; slope with rock-outcrops and shrubvegetation; estivating on shrubs and rocks; 3430 m; 6.II.1975.

76 - Dept. Lima, Río Cañete valley, 4.5 km of Laraos on footpath to Yauyos; slope with puya's and shrubvegetation; on shrubs; 3460 m; 6.II.1975.

77 - Dept. Lima, Río Cañete valley, 0.5-1.0 km of Laraos on footpath to Tintín; between stones of walls of Inca-terraces; 3420 m; 6.II.1975.

78 - Dept. Lima, Río Cañete valley, 12.3 km E Magdalena on road to Alis; sec. vegetation; in earth of chasms; 2800 m; 6.II.1975.

79 - Dept. Lima, Río Cañete valley, 1 km above Puente Auco on road to Yauyos; stony slope at basis of rock-face, with xerophytic shrubs, cacti etc.; in leaf litter and under rocks and in small chasms; 2070 m; 5.II.1975.

80 - Dept. Arequipa, near Atiquipa, abt. 590 km SE Lima; lomas-vegetation (parklomas); among vegetation; 300-600 m; 8.II.1975.
81 - Dept. Arequipa, ca. 21 km S Atico, near km 722 Panamericana; Neoraimondi-lomas; amongst and under rocks; 20-30 m; 8.II.1975.

82 - Dept. Puno, hills E of Huanta, 40 km N Puno; rock-outcrop with small shrubs; estivating on plants and rocks; 3825 m; 13.II.1975.

83 - Dept. Puno, hills near Caracoto, 37 km NNW Puno; rocks with small shrubs; estivating on plants and in chasms; 3825 m; 13.II.1975.

84 - Dept. Puno, 8 km S Tarucu on road to Pusi, 34 km NE Juliaca; hills with rock-outcrop and shrub vegetation; under rocks, in chasms and in shrubs; 3840 m; 13.II.1975.

85 - Dept. Puno, 12.0 km S Pusi, road to Capachica, 55 km E Juliaca; rocky hillslope with cacti and shrubs; amongst vegetation; 3930 m; 13.II.1975.

86 - Dept. Puno, 14.5 km S Pusi, road to Capachica, 57.5 km E Juliaca; hillslope with puna-vegetation; under and between stones; 3900 m; 13.II.1975.

87 - Dept. Cusco, hill 13.7 km S Sicuasi; grasses and xerophytic shrubs; amongst plants and stones; 3750 m; 14.II.1975.

88 - Dept. Cusco, 8.1 km of Combepeata on road to Yanaoca (121 km SE Cusco); rock-face with grasses, shrubs and mosses; amongst stones, mosses and in earth; 3760 m; 14.II.1975.

89 - Dept. Cusco, abt. 2 km of Huaracay, road to Pisac (32 km E Cusco); hillslope with partly xerophytic vegetation; amongst mosses and in leaf litter; 3000 m; 16.II.1975.

90 - Dept. Cusco, hill 10.1 km E Cusco; secondary vegetation of xerophytic shrubs, grasses and a few trees; estivating on grasses and Puya or under stones; 3215 m; 19.II.1975.

91 - Dept. Cusco, 5.7 km S Cusco, road to Paruro; hillslope with stones and mostly xerophytic shrubs; under stones; 3550 m; 20.II.1975.
92 - Dept. Cuzco, hills near Yaurisque, 43.8 km S Cuzco; grassy hillslope with scattered, partly xerophytic shrubs; estivating on grasses and shrubs; 3390-3410 m; 20.II.1975.

92A - Idem: among mosses and in earth, also in chasms.

93 - Dept. Cuzco, Yaurisque; garden; 3380 m; 20.II.1975.

94 - Dept. Cuzco, 5.7 km S Yaurisque (= 50.2 km S Cuzco); hillslope with stones and mostly xerophytic vegetation; among and under stones; 3630 m; 23.II.1975.

95 - Dept. Cuzco, 11.4 km S Yaurisque; hillslope with open, secondary vegetation; in Puya; 3710-3740 m; 23.II.1975.

96 - Dept. Cuzco, 13.4 km N Paruro; grassy hillslope with scattered shrubs and small trees; in shrubs; 3600-3630 m; 23.II.1975.

97 - Dept. Cuzco, Tambomachay, few km's N Cuzco; grassy hillslope with rock-outcrop and scattered, low shrubs; among rocks; 3840 m; 19.II.1975.

98 - Dept. Cuzco, calcareous rocks near entrance to Tambomachay; xerophytic shrubs at basis of rock-face; at basis of stones; 3800 m; 19.II.1975.

99 - Dept. Cuzco, 5.4 km of Paucartambo, road to Cuzco; grassy slope with scattered, low and partly xerophytic shrubs; in earth among grasses and mosses; 3180 m; 22.II.1975.

100 - Dept. Cuzco, 6.0 km SW Paucartambo, road to Cuzco; rocky slope with shrubs; under and among stones, also estivating on grasses; 3520-3540 m; 22.II.1975.

101 - Dept. Cuzco, Río Vilcanota valley, 25.8 km SE Pisac; steep slope with rock-outcrop and stones, grassy vegetation with shrubs, Tillandsia on rock-face; in earth and chasms, also under stones; 3090-3120 m; 19.II.1975.

102 - Dept. Cuzco, Río Vilcanota valley, 2.8 km SE Pisac; hillslope with rock-outcrop, grassy vegetation with some shrubs; under stones; 2980 m; 15.II.1975.
103  - Dept. Cuzco, Río Vilcanota valley, 13.3 km NW Pisac; rock-faces with *Tillandsia* sp.; in earth and among roots of *Tillandsia*; 2930 m; 15.II.1975.

103a - Idem; 16.II.1975.

104  - Dept. Cuzco, Río Cohchas valley, 10.0 km N Calca; grassy hill-slope with a few shrubs; on rocks and at basis of rocks in roots of vegetation; 3450-3490 m; 16.II.1975.

105  - Dept. Cuzco, Río Urubamba valley, 2.6 km ESE Ollantaytambo; hillslope with xerophytic shrubs; among leaf litter and on shrubs; 2860 m; 15.II.1975.

106  - Dept. Cuzco, Río Urubamba valley, 2.1 km ESE Ollantaytambo; rock-face with *Tillandsia* and xerophytic shrubs at basis; among shrubs; 2880 m; 17.II.1975.

107  - Dept. Cuzco, Río Urubamba valley, Ollantaytambo; steep slope with xerophytic vegetation (*Tillandsia* and other bromeliads on rock-faces); in roots of *Tillandsia* and under bromeliads; 2920-2940 m; 15.II.1975.

108  - Dept. Cuzco, Río Urubamba valley, 4.0 km WNW Ollantaytambo; rock-face with *Tillandsia* and xerophytic vegetation; in roots of *Tillandsia*; 2835 m; 17.II.1975.

109  - Dept. Cuzco, 21.8 km of Quillabamba (near Chaullay), road to Ollantaytambo; stony slope with sec., low evergreen salvia mixed with pillar-cacti; among stones and on treestem; 1280 m; 18.II.1975.

109A - Idem; at basis of steep slope with xerophytic vegetation; in leaf litter.

109B - Idem; among boulders at riverside.

110  - Dept. Cuzco, Río Urubamba valley, 3.4 km NE Quillabamba, road to Ollantaytambo; grass verge and border of forest; among plants and in leaf litter; 1200 m; 18.II.1975.
111 - Dept. Cuzco, Río Urubamba valley, 4.8 km S Urubamba, road to Anta; grassy hillslope with xerophytic vegetation of mimosa-trees and low shrubs; on shrubs and among litter and mosses; 3120 m; 15.II.1975.

112 - Dept. Cuzco, 2.3 km N Anta, road to Urubamba; rock-cut, outcrop with grasses and xerophytic shrubs; in leaf litter, earth and estivating on grasses; 3380 m; 15.II.1975.

s.n. - Dept. Cuzco, a few km W Limatambo, abt. 80 km W Cuzco; rocky hillslope with xerophytic shrubs and mimosa-trees; among vegetation, under stones and in chasms; 2600 m; 25.II.1975.

113 - Dept. Cuzco, 5 km E Puente Cunyac, 95.5 km W Cuzco; river-bank with xerophytic vegetation; in shrubs and under stones; 2075 m; 25.II.1975.

114 - Dept. Apurimac, Río Apurimac valley, Puente Cunyac, 96.5 km ENE Abancay; river-bank with xerophytic vegetation; under stones and on shrubs; 2000 m; 25.II.1975.

115 - Dept. Apurimac, Río Pachachaca valley, abt. 12 km W Abancay; river-bank with xerophytic vegetation; on shrubs and under stones; 1750 m; 26.II.1975.

116 - Dept. Apurimac, Río Pachachaca valley, 19.5 km SW Abancay; hillslope with xerophytic vegetation; among and under stones; 1960 m; 26.II.1975.

117 - Dept. Apurimac, 32 km SW Abancay; grassy slope with low shrubs; estivating on shrubs; 2650 m; 26.II.1975.

118 - Dept. Apurimac, Río Pincos valley, near Pincos; grassy slope with low shrubs; estivating on shrubs; 2650 m; 27.II.1975.

119 - Dept. Apurimac, Río Pincos valley, Hacienda San Carlos; shrub-vegetation near sugar-cane fields; among grasses and in leaf litter; 2225 m; 27.II.1975.

119A - Idem; rocky hillslope with xerophytic vegetation, agaves and puya's; on shrubs and agaves/puya's.
120 - Dept. Apurimac, 9 km E Andahuaylas; road-side with scattered low shrubs, partly xerophytic; estivating on non-xerophytic shrubs; 3250 m; 26.II.1975.

121 - Dept. Apurimac, hills near Chincheros, 88 km WNW Andahuaylas; hillslope with low shrubs and some agaves; under stones and mosses; 2810-2825 m; 28.II.1975.

122 - Dept. Apurimac, Rio Pampas valley, 6 km S of bridge, 118 km WNW Andahuaylas; river-bank with mimosa-trees, Opuntia and Cereus; in trees, cacti and shrubs; 2100 m; 28.II.1975.

122a - Idem; stony slope at basis of rock-face; vegetation as sta. 122 but also trees and non-xerophytic shrubs; on rocks and boulders, on shrubs and cacti; 2110-2150 m; 28.II.1975.

123 - Dept. Ayacucho, Rio Pampas valley, 0.9 km W bridge, 141 km SE Ayacucho; slope with scarce vegetation of low shrubs, Opuntia and a few trees; on plants; 2000 m; 1.III.1975.

124 - Dept. Ayacucho, 3.8 km W bridge Río Pampas, between Ninabamba and Pajonal; stony slope at basis of rock-face with sec. vegetation of trees and shrubs; under boulders, on plants and stones; 2080 m; 1.III.1975.

125 - Dept. Ayacucho, ravine near Pajonal, 137 km SE Ayacucho; xerophytic vegetation of shrubs, mimosa-trees and cacti; on stones in loamy wall, on vegetation; 2040-2070 m; 1.III.1975.

s.n. - Dept. Ayacucho, Chumbes, 122 km SE Ayacucho; under shrubs; 2850 m; 1.III.1975.

126 - Dept. Huancavelica, 2.3 km E Huancavelica; hillslope at basis of rock-face with low scattered shrubs and a few cacti; on shrubs, in earth and under mosses; 3650 m; 3.III.1975.

127 - Dept. Huancavelica, 41.9 km N Huancavelica; rock-outcrop in steppe with xerophytic vegetation; under stones, in earth and mosses; 3710 m; 3.III.1975.
128 - Dept. Huancavelica, Río Mantaro valley, 6.5 km S Izcuchaca, 70 km N Huancavelica; shrub-steppe with partly xerophytic vegetation; under shrubs and stones; 3170 m; 3.III.1975.

129 - Dept. Huancavelica, Río Mantaro valley, 7.2 km SE Izcuchaca, 79.2 km SSE Huancayo; shrub-steppe with mostly xerophytic vegetation; under stones and in (non-xerophytic) shrubs; 2850-2860 m; 3.III.1975.

130 - Dept. Junín, hills near Ataura, 83.5 km SE La Oroya; sec. vegetation near maize-fields and in rain gullies; under and in low shrubs, in leaf litter; 3350-3380 m; 6.III.1975.

131 - Dept. Junín, hillslope near Parco, 66 km SE La Oroya; semi-arid grass-steppe with very low shrubs and ferns; estivating in shrubs; 3410-3440 m; 6.III.1975.

132 - Dept. Junín, Llocallapampa, 57 km SE La Oroya; ravine with shrub-vegetation; in vegetation, on stones and rocks; 3450 m; 6.III.1975.

133 - Dept. Junín, 36 km SE La Oroya; grassy slope with scattered, low shrubs; in grasses and shrubs; 3600 m; 6.III.1975.

134 - Dept. Junín, Abra Cochas, 28.2 km W Tarma; puna; in roots of grasses near stones; 4180 m; 11.III.1975.

135 - Dept. Junín, 13.1 km W Tarma; shrub-steppe with cacti; under shrubs and on vegetation; 3600 m; 6.III.1975.

136 - Dept. Junín, 8.1 km W Tarma; shrub-steppe with cacti and on rock-face Tillandsia; in leaf litter under shrubs; 3350 m; 11.III.1975.

137 - Dept. Junín, Cerro Huayuncayo near La Florida, 7.2 km NE Tarma; slope with shrub-steppe and agaves at basis; on vegetation, on and under stones, in earth, chasms and on rock-faces; 2950-3150 m; 7.III.1975.

138 - Dept. Junín, Río Tarma valley, Cerro Huailahuichán, 13.7 km NE Tarma; hillslope with agaves, Tillandsia sp. and low shrubs; under Tillandsia; 2825-2850 m; 7.III.1975.
139 - Dept. Junín, near Carapata, 33.2 km NE Tarma; cloud forest; in leaf litter near stones, under mosses; 2200-2220 m; 7.III.1975.

140 - Dept. Junín, near Mal Alma, 40 km NE Tarma; cloud forest; in leaf litter and on tree trunks; 1860-1950 m; 11.III.1975.

141 - Dept. Junín, Río Tarma valley, Huacapista, abt. 42 km NE Tarma; in grassy verge of road; 1810 m; 7.III.1975.

142 - Dept. Junín, Río Tarma valley, Pan de Azúcar, 12.6 km SW San Ramón; rain forest; in leaf litter near rock-face and in converted forest; 1300-1350 m; 7.III.1975.

143 - Dept. Junín, 16.8 km WNW San Ramón, road to Mina Pichita Caluga; cloud forest; in leaf litter and on mossy tree trunks; 1700m; 8.III.1975.

144 - Dept. Junín, 2.3 km below Mina Pichita Caluga, 19.5 km WNW San Ramón; cloud forest; among vegetation and on mossy rock-face and stones; 1850 m; 8.III.1975.

s.n. - Dept. Junín, Mina Pichita Caluga, 21.8 km WNW San Ramón; among grasses; 2000 m; 8.III.1975.

145 - Dept. Junín, Río Chanchamayo valley, hills near Puente Herrería, 5.7 km N San Ramón; low rain forest with well-developed shrub-layer, in leaf litter; 800-850 m; 9.III.1975.

146 - Dept. Junín, Río Chanchamayo valley, hill near Puente Quimiri, 14.3 km N San Ramón; rain forest; in leaf litter; 790-830 m; 9,III.1975.

147 - Dept. Junín, hill near Huarmipuquio, 5.5 km W Junín; puna with rock-outcrop, in grasses near stones; 4170-4225 m; 12.III.1975.

148 - Dept. Junín, 17 km NW Junin, western side of Lago Junín; puna mixed with xerophytic vegetation; among plants and shrubs, mostly nearby stones and rock-outcrop; 4080 m; 12,III.1975.

149 - Dept. Junín, hill near Inca Pirca, 34 km N Junín, western side Lago Junín; puna with low, spiny shrubs; among plants,
under stones and in chasms; 4200-4260 m; 12.III.1975.

150 - Dept. Pasco, 3.9 km S Cerro de Pasco; puna; among vegetation; 4340 m; 12.III.1975.

151 - Dept. Pasco, 26.7 km NNE Cerro de Pasco, some km S Huariaca; shrub-steppe; under stones and among agaves; 3250 m; 13.III.1975.

152 - Dept. Pasco, 42.5 km NNE Cerro de Pasco, abt. 10 km N Huariaca; river-bank with grasses and scattered, low shrubs; under stones; 2800 m; 13.III.1975.

153 - Dept. Huánuco, 7.6 km S Ambu; semi-arid shrub-steppe; in vegetation, under stones and on mossy boulders; 2360-2380 m; 13.III.1975.

154 - Dept. Huánuco, Cerro Arcipunco near Ambu; semi-arid shrub-steppe; in shrubs, grasses and agaves, under stones; 2100-2225 m; 13.III.1975.

155 - Dept. Huánuco, 12 km S Huánuco; semi-arid shrub-steppe; on plants and under stones; 2020-2060 m; 13.III.1975.

181 - Dept. Santander, Río Chicamocha valley, ca. 57 km NE San Gil; arid shrub-steppe; among vegetation; 1700 m; 1.V.1975.

182 - Dept. Norte de Santander, 10 km S Cúcuta; arid shrub-steppe; in leaf litter; 375 m; 2.V.1975.

183 - Dept. Norte de Santander, 33 km S Cúcuta; low deciduous forest; in leaf litter and earth on ledges; 750 m; 2.V.1975.
184. Dept. Santander, 158 km S Pamplona (abt. 15 km S Málaga), Río Servitá valley; semi-arid vegetation of low trees and shrubs; in leaf litter and mulch and on treetrunks; 1300 m; 3.V.1975.

185. Dept. Boyacá, 218 km S Pamplona (a few km S Socatá); arid shrub-steppe; in leaf litter and mulch; 2100 m; 3.V.1975.

VENezuela.

186. Edo. Mórida, 36 km W Mórida; arid shrub-steppe (espinar); among vegetation; 670 m; 27.V.1975.

187. Edo. Mórida, 26.3 km W Mórida, near Lagunillas; arid shrub-steppe with cacti (cardonal); among vegetation; 820 m; 27.V.1975.

188. Edo. Trujillo, 27 km N Valera, road to Agua Viva; cardonal; among vegetation; 400 m; 28.V.1975.

189. Edo. Lara, 18.1 km W Barquisimeto; cardonal; among vegetation and in mimosa-trees and low, spiny shrubs; 700 m; 29.V.1975.

190. Edo. Lara, 38.3 NE Barquisimeto, road to Coro; espinar; among vegetation; 700 m; 29.V.1975.

191. Edo. Lara, 79.5 km NE Barquisimeto, road to Coro; forest; in leaf litter; 300 m; 29.V.1975.

192. Edo. Falcón, few km W Churugua, 109 km S Coro; espinar with some cacti; among vegetation; 750 m; 29.V.1975.

193. Edo. Falcón, 84.9 km S Coro; espinar; among vegetation; 400 m; 29.V.1975.

195. Edo. Aragua, National Park "Henry Pittier", trail from Biological Station "Rancho Grande" to Pico Guacamaya; high montane forest; in leaf litter; 1450-1800 m; 18.V.1975.
196 - Edo. Aragua, National Park "Henry Pittier", trail from Biological Station "Rancho Grande" to Pico Guacamaya; low tropical cloud forest; in leaf litter; 1100-1350 m; 18.V.1975.

196a - Idem; 20.V.1975.

196b - Idem; 28.V.1975 (O. Huber leg.).

197 - Edo. Aragua, National Park "Henry Pittier", 43.1 km NW Maracay, road to Turiamo; selva veranera; in leaf litter and on rock ledges; 160 m; 31.V.1975.

198 - Edo. Aragua, National Park "Henry Pittier", 56.9 km NW Maracay, road to Turiamo; selva veranera; in leaf litter; 65 m; 31.V.1975.

199 - Edo. Aragua, National Park "Henry Pittier", 60.7 km NNW Maracay, road Playa de Cata-Cuyugua; espinar; leaf litter; 30 m; 15.V.1975.

199a - Idem; 31.V.1975.

200 - Edo. Aragua, National Park "Henry Pittier", 69.8 km NNW Maracay, road Playa de Cata-Cuyugua; selva de transición; in leaf litter and on tree-trunks; 460 m; 31.V.1975.

201 - Edo. Aragua, National Park "Henry Pittier", 20 km N Maracay, Reversa del Diablo; selva veranera; in leaf litter; 1275 m; 20.V.1975.

202 - Distrito Federal, hills near Colonia Tovar; 55 km W Caracas; high tropical cloud forest; in leaf litter; 2100 m; 24.V.1975.

s.n. - Distrito Federal, Caracas; garden; in shrubs; 950 m; 23.V.1975.

s.n. - Idem; 2.VI.1975.
Selected bibliography:

Oficina Nacional de Evaluación de Recursos Naturales. Inventario, evaluación e integración de los recursos naturales ... (various publications). Lima.

Samenvatting:

Van een recente verzameldtocht door Zuid Amerika worden de reisroute en de vindplaatsen beschreven. Voor nadere gegevens over vegetatie, bodemkunde, klimatologie en ecologie wordt verwezen naar een aantal geselecteerde publicaties. Verdere waarnemingen en andere wetenschapelijke gegevens zullen elders worden gepubliceerd.
